QUESTION 64

An administrator is planning the capture of a reference machine for two departments: Finance and Information Technology. Which two applications should the administrator include in the common base layer? (Choose two.)

- A. Finance Accounting Application
- B. Anti-Virus software
- C. Admin Script Editor
- D. VPN Software

Answer: BD

QUESTION 65

An administrator needs to prevent specific application-related setting files from being overwritten during a base layer update. What should the administrator do?

- A. Use Base Layer Override Policy to exclude application configuration files if they exist.
- B. Use Upload Policy to exclude application configuration files in the User Area section of the policy.
- C. Use Base Layer rules to exclude files from being deployed to workstations.
- D. Use Upload Policy to exclude application configuration files in the Unprotected Area of the policy.

Answer: A

QUESTION 66

Several users within a corporation installed a team collaboration utility onto their Mirage-managed systems. The systems became erratic, so they uninstalled the application, but the problem remained. An administrator needs to repair the users' systems and ensure they are compliant with the corporate image. All user profile data must remain intact. What should the administrator do?

- A. Revert to Snapshot with Restore System Only option selected.
- B. Enforce All Layers with the Preserve user applications option selected.
- C. Revert to Snapshot without Restore System Only option selected.
- D. Enforce All Layers with the Remove user applications option selected.

Answer: D

QUESTION 67

After creating an Upload policy for a group of users, an administrator has found a significant increase in storage usage by Mirage. After further investigation, the administrator finds that the increase is a result of users storing personal MP3 libraries on the system. What should the administrator do to prevent these files from being protected while allowing the users to store the files on the system?

- A. Add a Rule to the User Area for MP3 files in the Upload policy.
- B. Create a Collection labeled Exclude MP3s.
- C. Add a Rule Exception to the Unprotected Area for MP3 files in the Upload policy.
- D. Add a Rule to the Unprotected Area for MP3 files in the Upload policy.

Answer: A

QUESTION 68

In which interface component should an administrator set up an external Oracle database for Workspace Portal?

- A. Configurator Database setup page
- B. Configurator Database connection page
- C. Connector Database setup page
- D. Connector Database connection page
